

# RESPIRATORY PROTECTION

## Force®10 Typhoon™ RX Modular Prescription Kit

AST000-000-000

### DESCRIPTION

The RX Modular Prescription Kit enables the use of corrective lenses with the Force®10 Typhoon respirator, preventing traditional prescription spectacles interrupting the face seal and compromising protection. The RX insert can be taken to a high street optician to be glazed with your relevant prescription. It can be easily removed for cleaning and maintenance, or to be used in a new / pool mask or different product.

### SAFETY STANDARDS
